Hello Steve and Jack,

Thanks for your time last week. The conversation was helpful. In anticipation of USM potentially asking us if DEP is pursuing a formal audit, I would picture our team providing a response like this if asked:

DEP has reviewed the current AUL is not pursuing a more formal audit, but there is concern for both EPA and DEP that the data in the Elliott landing area is limited therefore EPA is not comfortable excluding that area from the scope of work needed.

Let me know if you have any concerns with this. Thanks
